

## MODULE 6: External Sources for further studies

CONTENT 1: INNOFARMING Course

# What is INNOFARMING?

The INNOFARMING is a EU project that aims to develop innovative European training tools in urban farming for professionals and future professionals of this growing sector.

INNOFARMING is supported as part of the “Vocational training strategic partnership” section of the ERASMUS + programme.

The project started on October 2019 and ended on September 2021.

# The Course
